

Parking lot USB exercise

I would not even attempt to mount this USB device. I would destroy it with a hammer to prevent its potential attack abilities.

Contents	<p>Write 2-3 sentences about the types of information found on this device.</p> <ul style="list-style-type: none">• <i>Are there files that can contain PII?</i>• <i>Are there sensitive work files?</i>• <i>Is it safe to store personal files with work files?</i>
Attacker mindset	<p>Write 2-3 sentences about how this information could be used against Jorge or the hospital.</p> <ul style="list-style-type: none">• <i>Could the information be used against other employees?</i>• <i>Could the information be used against relatives?</i>• <i>Could the information provide access to the business?</i>
Risk analysis	<p>Write 3 or 4 sentences describing technical, operational, or managerial controls that could mitigate these types of attacks:</p> <ul style="list-style-type: none">• <i>What types of malicious software could be hidden on these devices? What could have happened if the device were infected and discovered by another employee?</i>• <i>What sensitive information could a threat actor find on a device like this?</i>• <i>How might that information be used against an individual or an organization?</i>
